

Wadelius Drive

Wadelius Drive Reopens - Temporarily

Now that the colder weather has returned, the Kelsey School Division Board of Trustees agreed to reopen Wadelius Drive between École Scott Bateman Middle School and Margaret Barbour Collegiate Institute. This decision was based in part on a better chance to maintain the road now that run-off water is less likely to make it impassable. Another reason was due to the danger imposed on students by some people driving vehicles around the barricades, onto sidewalks and even across school lawns. When warmer weather arrives in the spring and the impassibility of the road returns, it will be closed with more barriers used to prevent vehicles driving over school property. Meanwhile, Kelsey School Division awaits a visit from a Manitoba Education consultant to examine the basic drainage problem that is the cause of the road's deterioration.
